

7 Reasons to be Excited about the 2018-2019 School Year

Universal Free Lunch

We are excited to announce that for the first time ever, St. HOPE is eligible for Community Eligibility Provision (CEP) which means that 100% of our scholars will receive breakfast and lunch absolutely free on days which they are in attendance! Whereas in the past, only certain students received this benefit now all students will, without the need for the application or documentation.

\$25 Million Dollars for a Brand New PS7E Facility

In the Winter of 2018, St. HOPE Public Schools was awarded a \$25 million dollar grant for a new PS7 Elementary School facility. There is so much more to come on this topic and we have a long road ahead of us, but we are thrilled that our scholars are getting a campus they can be proud of and deserve!

Renovation of the Sac High Library

This past Spring St. HOPE raised more than \$65,000 on the Big Day of Giving to go toward renovating the library on the main campus. The plans include new furniture and state of the art technology. The project will kick-off this year!

95% of Sac High Seniors Accepted to a four-year college

This past school year 95% of Sac High's senior class were accepted to a four-year college. This fall we will cheer them on from Sacramento as they begin their college journeys all across the nation.

More Electives

PS7 Elementary School is now offers three different electives. Between Music, Art, and P.E. our young scholars have some incredible opportunities to enrich their academic experience, while continuing to make huge gains in Math and English.

College Field Trips for All

One very unique thing about St. HOPE Public Schools is that we have college field trips available for every grade level K-12. These trips are a special time for our scholars to learn more about college and visualize themselves making it to and through college!

Fantastic Partners

Did you know Sac High is the only school in America that has College Track, City Year, and Teach for America? These three outstanding educational programs help us in working toward our mission and getting us closer to our vision of being the finest urban Tk-12th grade public education system in America!
